

Year in Review: The Future of Work in Dispute Resolution

Please join us as we continue our annual tradition online! CPR Y-ADR, along with its co-sponsoring organizations — New York International Arbitration Center, Campaign for Greener Arbitrations, International Law Committee of the New York City Bar Association, and Young Members Group of the Chartered Institute of Arbitrators — invites you for a delightful conversation. We will deliberate over the future of work, a topic that touches each and every one of us. We will reflect on what the last few years of rapid transformation have taught us and which of these learnings are here to stay. We welcome your thoughts, comments, and questions at this interactive panel. Above all, we look forward to seeing you!

December 16, 2021
