Fluor HQ, Irving TX

Tel +1 469.398.7691 | Mob +1 469.321.7860

fritha.wheeler-ozanne@fluor.com

BIO

Fritha's professional focus has always been on the resolution of global disputes for market leaders in the construction, project and energy sectors. She has worked in the US and internationally on large scale construction and engineering disputes. Since joining Fluor from Jones Day in 2018, she has continued to work on disputes both domestically and abroad, including in Australia, Latin America, Europe and the Middle East.

Fritha strives to drive disputes as efficiently as possible to maximize positive outcomes and minimize costs, including through formal litigation, arbitration, adjudications, mediation, expert determinations and (importantly) ongoing project support. Since joining Fluor, Fritha has gained valuable insight into Fluor's business, which allows her to taper her advice on dispute resolution appropriately.

Fritha is also passionate about the necessity and value of having a diverse and inclusive workforce that fosters equality and respect. To this end, she is involved in a number of organizations within Fluor that further these objectives:

- GROW ("Growing Representation and Opportunity for Women") – member of the Dallas chapter for this inhouse group promoting women within Fluor.
- Global Net Zero 23 - Fluor has made the Net Zero 2023 commitment to eliminate both Scope 1 and Scope 2 absolute greenhouse gas (GHG) emissions by the end of 2023. Member of the global core team.
- Fluor's Employee Giving – Co-chair of Fluor's campaign that encourages and facilitates charitable giving.
